

## A New Way to Experience God's Word – [her.BIBLE](#)

During many long hours of commuting and listening to lots of great audio books, we noticed a silent space in the audio book world when it came to the Bible. Women's voices were missing. [her.BIBLE](#) brings the Word of God to life through an engaging, multi-ethnic women's narration of the New Living Translation. Listen as you go about your day and connect with the heart of God on a deeper level.

People are already responding. Sarah, a human trafficking survivor wrote, “I just want to say thank you, a thousand times to the people who put together her.BIBLE. It is such a powerful way to soak up scripture.” We always dreamed that hearing God’s Word in women’s comforting voices would help overcome emotional barriers. Sarah’s kind words confirm God’s leading in this project.

[her.BIBLE](#) will always be free and is easy to share with your friends. Download the app for an even better listening experience at the [App Store](#) or [Google Play](#). New releases of more Old Testament books are coming soon.
